AQAR ACADEMIC SESSION 2022-23

Criterion VII

7.1.4 Water conservation facilities available in the Institution

WATER CONSERVATION FACILITIES AVAILABLE IN THE INSTITUTION

Submitted to

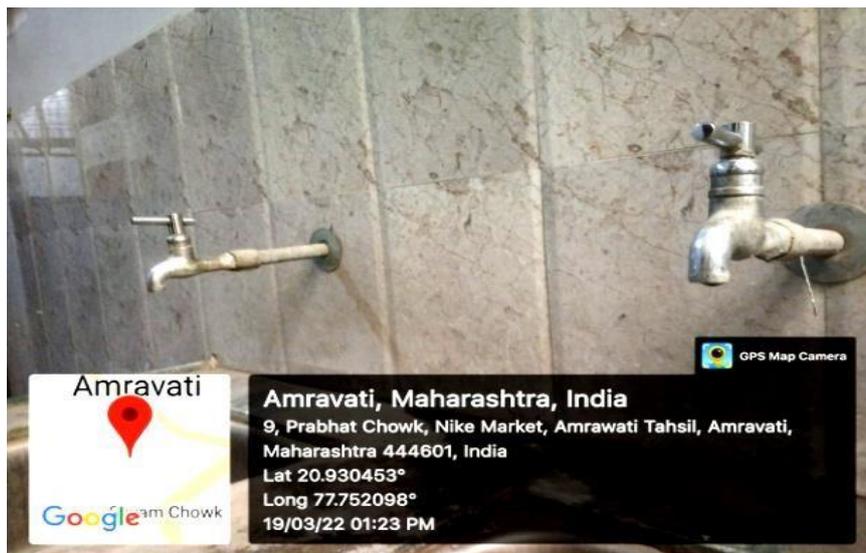

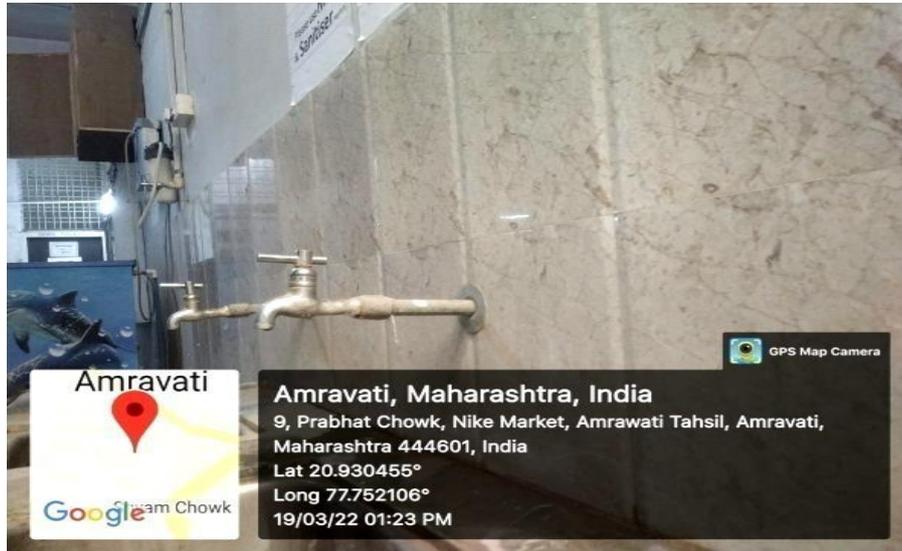

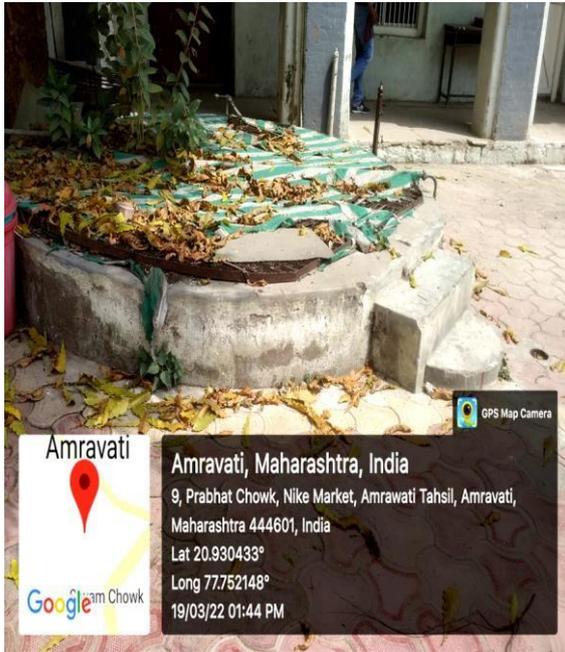

**THE NATIONAL ASSESSMENT AND
ACCREDITATION COUNCIL**

CONSTRUCTION OF TANKS AND BUNDS

WATER BODIES AND DISTRIBUTION SYSTEM IN THE CAMPUS

Rain water harvesting

Rainwater harvesting is done on the campus to avoid the unnecessary wastage of the water available. Vidarbha is a state blessed with good average rainfall every year, but the maximum amount of water is seen wasted everywhere.

It is necessary to avoid this unnecessary wastage of water. Therefore, rainwater harvesting is done in the Campus.

WATER PURIFIER (FOR PURE DRINKING WATER)
