Student Centric Methods
2023-24

Experiential learning:

In the teaching-learning process, one of the methods used extensively by the department of Home-economics to enhance the learning experience of the students is experiential learning. This methodology enables an opportunity to the students to engage practically by applying the theoretical knowledge intellectually and conceptions. The essence of this learning process is reflecting on the critical thinking, assessing decisions taken eventually leading to errors and/or success. Department of Home-economics employed experiential learning in the academic session as stated below-

Sr. No	Activity	Date
1.	Breast Feeding Week	04.08.2023
2.	Dish Decoration Competition	11.09.2023
3.	Nutrition Beauty Pageant	11.09.2023
4.	Intercollegiate Debate Competition	12.09.2023
5.	Event Management-Tea Party	11.10.2023
6.	Extension Education Program- Demonstration of Mushroom Products to Village Women	12.10.2023
7.	Event Management – Women Entrepreneur Fair	10.01.2024 to 11.01.2024
8.	Laboratory Demonstration and Practical	Throughout the year

Department: **Home –economics**

Date: **11.09.2023**

Type of Activity: **Experiential Learning**

Name of the Activity: Nutritional Beauty Pageant Contest.

Objectives of the Activity:

- * To provide opportunity to learn through entertainment
- * To create nutritional awareness amongst the students and staff
- * To raise health awareness
- * To inspire students to explore their creativity and talent

Number of participants/ beneficiaries:

42

Outcome:

- * The event was a means to create nutritional awareness.
- * The activity offered an opportunity to the students to explore their creativity.
- * The contest was able to instill confidence and reduce stage fear in the students
- * The activity was able to raise health awareness and learn to maintain BMI for healthy life.

Details of the Activity:

Department of Home-economics organized an event namely 'Nutritional Beauty Pageant Contest'. It was activity open for all the streams. Students actively participated in the activity and made the event very entertaining as well as educative. Students adorned jewelry made from pulses, legumes, seeds, nuts, fruits, vegetables etc. in a very creative and attractive manner. The grading parameters were BMI, anthropometric assessment, creativity and nutritional knowledge. Students paraded and answered the questions.

The panelists judged the participants and declared first three prizes. The winners were crowned (crown made from eatable leaves and fruits). The event was successfully hosted by the postgraduate students under the guidance of the faculty of the department.

Department: **Home –economics**

Date: **12.10.2023**

Type of Activity: **Extension Activity**

Name of the Activity: Demonstration of Mushroom Products (Technology Transfer)

Objectives of the Activity:

- * Inform village women about the importance of mushroom in diet.
- * Demonstrate the correct method of making mushroom products.
- * Galvanize action on healthy diet through new types of food beneficial to all
- * Create awareness about mushroom cultivation to the women

Number of participants/ beneficiaries: 06

Outcome:

- * Participants worked along with the faculty to engage women and teach them various dishes from Mushroom
- * Participants were able to reach out the people concerning to sustainable development and the beneficiaries through posters prepared by the students
- * Each participant worked unceasingly to collaborate with the society and beneficiaries.

Post Graduate students of Department of Home Economics, organized a program in collaboration with ICDS centre regarding technology transfer to the women of Kawatha Bahale. Students along with faculty of the department prepared posters demonstrating the importance of mushroom in diet. Faculty member Prof. Smita Wadhonkar and Namrate Dhumale stressed on the entrepreneur opportunity of mushroom cultivation and suggested the training centers imparting mushroom cultivation training. Number of women from the village participated in the program and enthusiastically learned the new dishes prepared by the students.

2.3.1 Student centric methods- Experiential learning used for enhancing learning experiences (20)

Department: **Home –economics**

Date: **Throughout the year**

Type of Activity: **Experiential Learning**

Name of the Activity: Practical and demonstrations

Objectives of the Activity:

- * To develop the capabilities and knowledge of students in the areas of Home Economics.
- * To develop relevant skills and make students efficient in academics, research and industry in the field of Home Economics
- * To apply knowledge and competencies developed as graduates to impart knowledge, identify, analyze and address family and societal issues to improve quality of life of individual, family and society.

Number of participants/ beneficiaries: UG/PG Students

Outcome:

- * The activity helped to gained the holistic understanding of the subject
- * The activity provided an opportunity to apply knowledge, experiment and foster competence and excellence in the subject
- * The activity helped solve problems by applying scientific methods, through critical thinking, assessing, analyzing, finding appropriate solutions and taking decisions.

Details of the activity:

Practical's and demonstration is a regular feature of the teaching-learning process. The curriculum has an integrated approach of combining theory and practical. Practical's is an effective method to understand the concept and get hands on experience related to core courses of Home-economics. It empowers the learner to develop competency related to family and community and necessary life skills.

Projects Practicals and demonstrations on various subjects such as Family Resource Management, Food Science and Nutrition, Human Development, Early Childhood Care and education, Textile and clothing, Consumer Economics, Marriage and Family Relationships are conducted in the department.

Type of Activity: **Extension Activity**

Name of the Activity:
Entrepreneurship Fair for women entrepreneurs

Objectives of the Activity:

* To provide a platform for the students, alumni and women entrepreneurs to exhibit and sale their handicraft/ products

* To motivate the students to explore new innovations and the prospects of starting new enterprise

* To promote traditional handicrafts and local products by ensuring sale through entrepreneurship fair.

Number of participants/ beneficiaries: 39 entrepreneurs

Outcome:

*The activity furnished the students, alumni and women entrepreneurs an opportunity to market their products thus conferring them confidence

* In the fair various traditional and local articles and products were put on sale thus promoting them.

*The event was successful in instilling the entrepreneurship skills in the students as well as gained an experience in managing an event.

Detail Report- Department organized entrepreneurship fair for women entrepreneurs, alumni and students in collaboration with Mahila Mahavidyalaya Alumni Association. New and successful entrepreneurs from Amravati district, college alumni as well as students from the institute displayed their stalls of apparels, handicrafts, festive snacks, jewelry, food stalls etc. Citizens of Amravati well received this fair and the entrepreneurs were able to earn while making significant profit. This two day fair cum sale was a huge success and a learning experience for the students.

Participative Learning:

Participative learning is an age-old technique to student centric learning methods. This learning method facilitates the learner to involve in the experience that assists to comprehend, advance and construct knowledge, skills and expertise associated with the subject. Participative learning creates learning interest, bridges an academic and industrial gap, accomplishes learning managerial skills, changes the attitude towards team work, aids the students to update themselves with subject knowledge and encourages hands on learning experience. Department of Home-economics involved participative learning in the academic session as stated below-

2.3.1 Student centric methods- Participative learning used for enhancing learning experiences (20)

Department: **Home –economics**

Date: **11.09.2023**

Type of Activity: **Nutrition Week**

Name of the Activity: Lecture on 'Fostering Healthy Food Habits in Youths'

Objectives of the Activity:

- * To promote the consumption of healthy food amongst the youth
- * To create awareness amongst the students regarding the importance on diet and regular exercise to maintain physical and mental health
- * To spread awareness about the care to be taken by home-makers to provide balanced diet to the family.

Number of participants/ beneficiaries: 49

Outcome:

- * The activity helped the students to create health and nutritional awareness in the institute.
- * The activity offered an opportunity to the students to get information on healthy foods to be incorporated in daily life.
- * The activity was successful to instill awareness about the required amount of nutrients in daily diet.
- * The lecture was a guide to the diet and exercise management, risks and illness etc.

Details of the Activity:

Department of Home-economics organized a lecture for celebrating "National Nutrition Week". A lecture was organized on the opening ceremony of nutrition week on 'Fostering Healthy Food Habits in Youths'. Miss. Pratiksha Thosar, Dietician, Radiant Hospital, Amravati delivered a lecture and provided important facts regarding the information on balance diet, stress free environment creation, habit formation and regular exercise for the youthful life. She also had interaction with students and answered many question raised by the students on health issues.

On the occasion, Dr. Avinash Moharil, Principal, MMV, Amravati also stressed the importance leading a healthy life.

The program was successfully hosted by the Study Circle, Department of Home Economics, Mahila Mahavidyalaya, Amravati.

ACTIVITY REPORT

2.3.1 Student centric methods- Participative learning used for enhancing learning experiences (20)

Department: **Home –economics**

Date: **12.10.2023**

Type of Activity: **Participative Learning**

Name of the Activity: Visit to ICDS, kawata Bahale

Objectives of the Activity:

- * To study the education development of the children
- * To study socialization process of the children
- * To study the record keeping of child in ICDS center

Number of participants/ beneficiaries:
35

Outcome:

- * The visit helped the student practically observe the children and learn about the development of children
- * The activity provided the students to compare the theory they learn with the practical application in ICDS
- * Students gained knowledge on the method of height and weight measurement.
- * ECCE students were able to enjoy with the children

Detail Report:

Students of Early Childhood Care and Education and M.A. Sem II Human Development visited ICDS Center, Block 68, Amravati. Students enquired about the curriculum followed by the ICDS. They also interacted with the children to assess their educational development, socialization and overall development of the children. The students also learned about the method of weight and height measurement.

The students also observed the children during recess and noted their eating habits. Later the students of ECCE played and had story session with the children. Students also observed the premises of the ICDS noting all the facilities provided to the children.

Date: **27.10.2023**

Type of Activity: **Participative Learning**

Name of the Activity: Visit to Mahajan flower Shoppy

Objectives of the Activity:

- * To observe the establishment from entrepreneurship opportunity.
- * To study the process of running the flower shoppy.
- * To examine requirement of buying flowers.

Number of participants/ beneficiaries:
16

Outcome:

- * The visit helped the student practically observe the flower shoppy in order to understand the business venture.
- * The activity provided the students to compare the theory they learn with the practical application.
- * Students gained knowledge on the method of choosing flowers for making various bouquet.
- * Students were able to learn the process of establishing a small venture.

Detail Report:

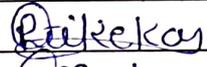

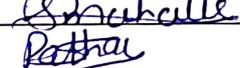

B.A. I students visited the flower shoppy to understand the entrepreneurship opportunities in flower business. They went there to know how a small venture is established; the requirements to start a small business are, where to get the required funds to start the unit and where to get the raw materials. They were able to observe the use of creativity to stand out and give something innovative to the customers. Students asked various questions and observed the flower shoppy.

ACTIVITY REPORT

2.3.1 Student centric methods- Participative learning used for enhancing learning experiences (20)

Department: **Home –economics**

Date: **16.04.2024**

Type of Activity: **Participative Learning**

Name of the Activity: Visit to ICDS.

Objectives of the Activity:

- * To study the education development of the children
- * To study socialization process of the children
- * To study the record keeping of child in ICDS center

Number of participants/ beneficiaries:
06

Outcome:

- * The visit helped the student practically observe the children and learn about the development of children
- * The activity provided the students to compare the theory they learn with the practical application in ICDS
- * Students gained knowledge on the method of height and weight measurement.
- * ECCE students were able to enjoy with the children

Detail Report:

Students of Early Childhood Care and Education and M.A. Sem II Human Development visited ICDS Center, Kawatha Bahale. Students enquired about the curriculum followed by the ICDS. They also interacted with the children to assess their educational development, socialization and overall development of the children. The students also learned about the method of weight and height measurement.

The students also observed the children during recess and noted their eating habits. Later the students played and had story session with the children. Students also observed the premises of the ICDS noting all the facilities provided to the children.

Department of Home Economics
Student Centric Methods
2023-24

Problem solving methodology:

One of the most brain-storming student centric learning methods is the problem-solving method that requires analytical skills, critical thinking ability, rational approach, expressing objectively and giving reign to free imagination. In the teaching- learning process, problem solving technique is a self-learning method, helping students to effectively assess the knowledge on the related field of learning. Through the exercised problem-solving methods students learn to differentiate facts from beliefs, seeking the alternative to solve the problem, evaluate and implement the solution. Department of Home-economics employed problem solving methods in the academic session as stated below-

Sr. No	Activity
1.	Home Assignment
2.	Seminar Presentation
3.	Internal Examinations
4.	Survey and research activities

ACTIVITY REPORT

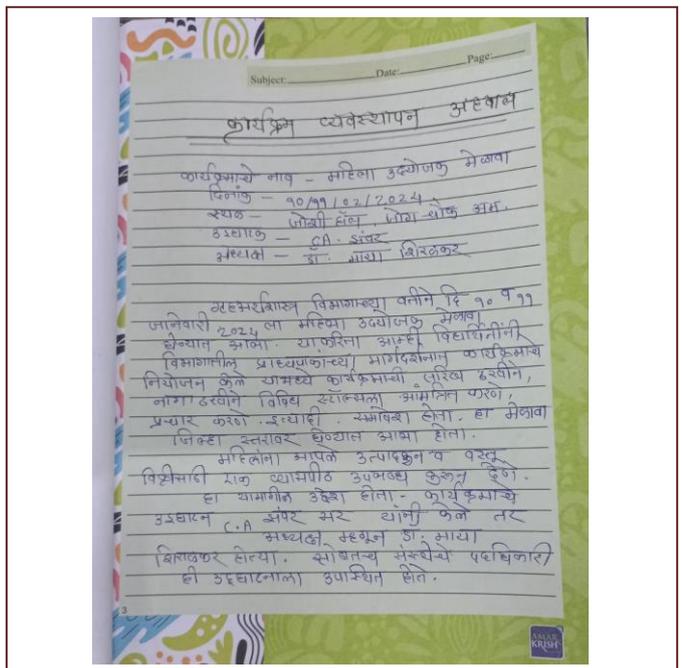

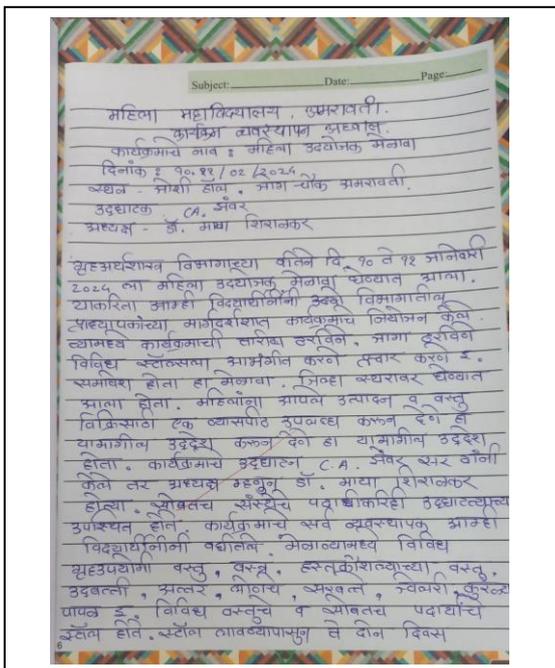

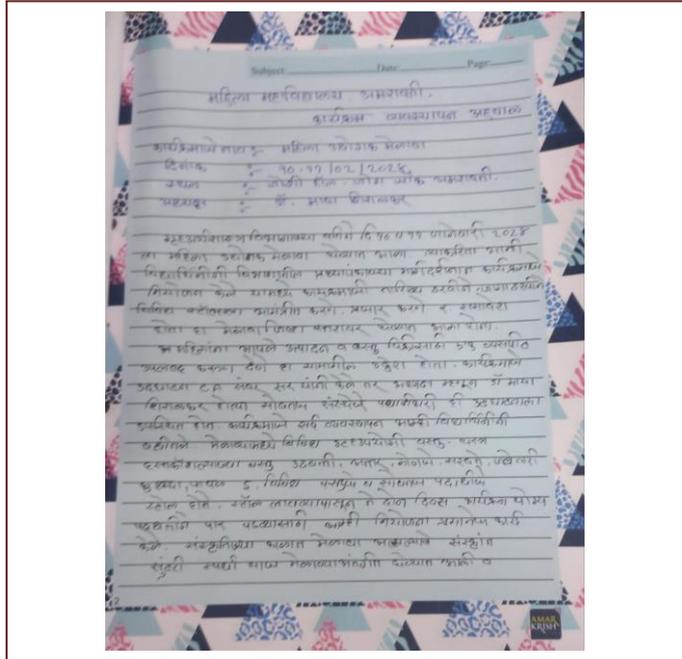

2.3.1 Student centric methods- Problem solving methodologies used for enhancing learning experiences (20)

Department: **Home –economics**

Type of Activity: **Home Assignments**

Details: Home assignments are allotted to the students to engage them in the learning process, instill the habit of revision, search for extra information other than text book and help retain the content. This method helps to evaluate the learning progress of the students. This method is used by the department for all the class.

ACTIVITY REPORT

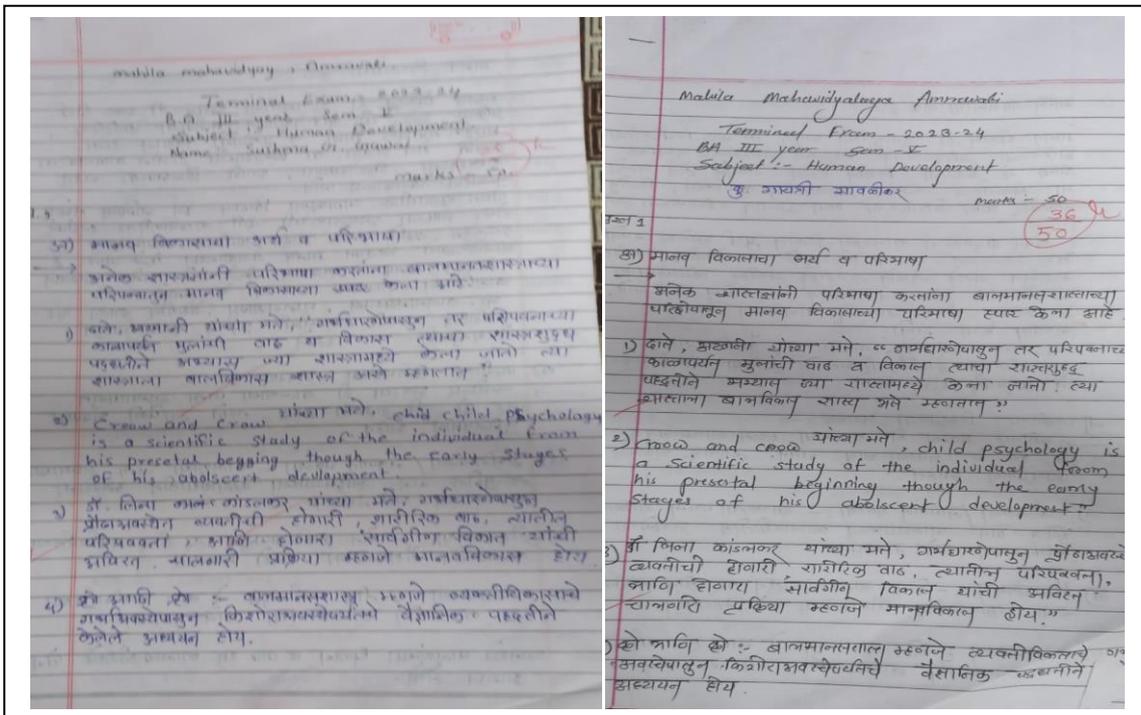

2.3.1 Student centric methods- Problem solving methodologies used for enhancing learning experiences (20)

Department: **Home –economics**

Type of Activity: **Tests and Examinations**

Details: Regular tests are conducted in the institute as a part of continuous evaluation process. Test such as class test, surprise test, open book test, objective test, terminal test, viva-voce etc. It helps to assess the students continuously pertaining to their subject knowledge and retention capabilities as well as helps to monitor their progress. The evaluation process provides the insight on the students learning and understanding level.

ACTIVITY REPORT

2.3.1 Student centric methods- Problem solving methodologies used for enhancing learning experiences (20)

Department: **Home –economics**

Type of Activity: **Research activities**

Details: Research is one of the student centric methods used by the department. Individual and Group research is a methodological tool used to analyze a defined problem using various data sources and research methodologies. It helps in the knowledge application and contextual testing through scientific methods. This problem solving method improves comprehension and analytical skills of the students.
