Problems Solving Method

Name of the Activity: The role of Languages in artificial intelligence

Aim and Objectives:

To understand the role of Languages in artificial intelligence
To understand what is artificial intelligence

Report of the activity:

Today's age is the age of artificial intelligence. Artificial Intelligence is a technology that is transforming every walk of life. Therefore students need to acquire more knowledge about artificial intelligence. Students should also know the role of languages in artificial intelligence. Keeping this in mind the department of Marathi in collaboration with the departments of English and Sanskrit organised a program on the role of languages in artificial intelligence. Head of the department of English Mr. J. N. Parate presided over the function while Dr. Umesh Belore was present on the dais.

The chief guest for the function was Dr. Prem D. Ambhore, head of the department of Information Technology, Govt. College of Engineering, Amravati. Dr. Ambhore gave detailed information about artificial intelligence to the students. He also threw light at length on the different roles of languages to be played in artificial intelligence. In his presidential speech, Mr. J. N. Parate appealed to the students to enhance their knowledge of languages by working hard so that they should be able to do something great in the field of artificial intelligence.

Number of Students Participated: 90

Outcome:

1. Students got information about artificial intelligence.
2. Students understood the role of languages in artificial intelligence.
